-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. This office action, in response to the amendment filed 11/24/2004, is a final office action.

***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on 8/16/2004 is being considered by the examiner.

***Response to Amendment***

3. Applicant's arguments see the remarks on pages 26-28 filed 11/24/2004, with respect to claims 1-48 have been fully considered and are persuasive. The rejections of these claims have been withdrawn.

New claims 50-52 are rejected as stated below.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 50-52 are rejected under 35 U.S.C. 102(b) as being anticipated by Hakkinen et al (WO98/10542) (Hakkinen et al (US 6,282,185) is used since it is the equivalent of US 6,282,185).

Regarding claims 50-52, Hakkinen discloses an OFDMA system (column 1, lines 32-48). A number of base stations transmit frequency-hopping signals (column 1, lines 9-12). Figure 2 shows the frequencies used to transmit by one of the base stations for multiple symbol periods. Each of the tones is separated by one another by at least one tone (frequency). The frequencies will always be different and each of lines 20-23 show the slope of the transmissions. From T1 to T2, a number of frequencies are used. At T2 a hop occurs, changing the slope to a new value until T3. Figure 3 shows the pilot is transmitted in this manner. The base stations use different frequencies to transmit data otherwise base stations would interfere with one another and no data would be recovered.

***Allowable Subject Matter***

5. Claims 1-49 are allowed.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 2631

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
